Work Experience

since 06/26 **Technical Lead - Data Governance & Software Factory**, Robert Bosch GmbH, Abstatt
- Established governance frameworks, metadata standards, and data contracts for safety-critical embedded software development in automotive braking systems.
- Coordinated engineering teams to ensure consistent data structures, traceability, and interoperability throughout the software lifecycle.
- Increased transparency across existing data and software artifacts and identified synergies between engineering domains.

since 03/25 **Lead Data Engineer - Data Backbone**, Robert Bosch GmbH, Abstatt
- Designed and built an Azure Databricks data platform as the technical foundation for analytics, visualization, and AI solutions in engineering.
- Product Owner for the backlog and roadmap; guided an international development team across Germany, India, and Sweden in close collaboration with stakeholders.
- Built data pipelines connecting isolated engineering artifacts, providing a foundation for agent systems and intelligent automation.
- Held end-to-end responsibility for scalable data architecture and reliable data products.

12/23 – 06/26 **AI Coordinator**, Robert Bosch GmbH, Abstatt
- Served as the central point of contact between AI teams, business units, and management, steering and prioritizing AI initiatives from idea to production.
- Identified, evaluated, and prioritized AI use cases across engineering domains; increased visibility into ongoing initiatives and fostered synergies.
- Coordinated and scaled generative AI and agentic AI solutions in alignment with business objectives and strategic direction.
- Advised on AI governance and regulatory requirements, including the EU AI Act, and translated them into operational processes for AI development and deployment.

02/22 – 12/23 **Digital Qualification Manager**, Power Solutions, Robert Bosch GmbH, Stuttgart
- Designed and built the Digital Academy as a company-wide AI initiative, from strategy through production, serving more than 500 professionals annually.
- Translated AI and data strategy into practical learning paths for Data Scientists, Engineers, and Analysts, building AI capabilities across the organization.
- Trained executives in digital transformation and integrating AI into business processes, bridging management and technical teams.

since 06/21 **Freelance AI Consultant and Trainer**, Simon Klug | AI Education and Consulting
- Advised SMEs and academic institutions on AI strategy, use case identification, and implementation, from initial idea to application.
- Coached research groups at several German universities on pitches and presentations, communicating complex AI topics to diverse audiences.

Education

Master of Science, Electrical Engineering and Information Technology
Karlsruhe Institute of Technology
- Focus: Deep Learning, NLP, Data Literacy, and Artificial Intelligence
- Master thesis: Learner-centered code assessment - An NLP approach towards better Education
- Certified Trainer qualification, Karlsruhe Chamber of Industry and Commerce (IHK)
- Final grade: 1.6

Bachelor of Science, Electrical Engineering and Information Technology
Karlsruhe Institute of Technology
- Bachelor thesis: Efficient anomaly detection in vehicular communication networks with self-learning ensemble-based algorithms
- Focus: Machine Learning, Applied Information Theory

Skills

IT
- Python (FastAPI, PyTorch, Transformers, LangGraph ...)
- Cloud (Azure, Databricks, web development ...)
- Linux server administration (Docker, Kubernetes, ...)

Languages
- German - (native)
- English (fluent, C1)
- Spanish - (basic)

Management
- Academy for Leadership and Personality, Institute for Philosophy and Leadership
- Professional Scrum Master I (PSMI, scrum.org)
- Leadership Talent Academy (Karl-Schlecht Foundation)
- Cultural Competencies for Leaders (Kulturkreis Scholarship)
- Basic Certificate in Project Management (GPM)

Further Experience

since 2016 **Project Manager, Theatre Actor and Director**
UniTheater Karlsruhe e.V.
- Led and directed productions involving up to 75 participants, currently "Helges Leben"
- Board member, production manager, and training coordinator
- Member of the Improtheater Karlsruhe ensemble, with performances at the Staatstheater Karlsruhe

since 2012 **Trainer**
Sail Training Ship Thor Heyerdahl, Kiel
- Conducting experiential educational voyages for young people on the North and Baltic Seas
- 7-month cruise to Central America and back
